DESIGN AND PERFORMANCE.

Lea Ceramiche fa della materia un linguaggio in continua evoluzione.

Lea Ceramiche esplora da sempre nuove forme espressive, trasformando ricerca tecnologica e cultura della materia in superfici dal carattere inconfondibile e dalle prestazioni tecniche straordinarie.

Un approccio basato sulla creatività e sul confronto aperto con i più apprezzati designer internazionali, che ha generato soluzioni capaci di unire forza estetica, innovazione e qualità progettuale, riconosciute attraverso prestigiosi premi e importanti realizzazioni in tutto il mondo

Lea Ceramiche takes material beyond the surface, towards new forms of expression.

Lea Ceramiche has always explored new forms of expression, transforming technological research and a deep understanding of materials into surfaces with a distinctive character and outstanding technical performance.

This approach is rooted in creativity and open dialogue with leading international designers, and has generated solutions that combine aesthetic power, innovation and design quality, earning prestigious awards and being chosen for major projects around the world.

LEA
CERAMICHE

DESIGN AS A NEW POINT OF VIEW.

Vertical Horizon è un invito a cambiare punto di vista: ciò che nasce orizzontale si innalza, diventando presenza, architettura, racconto. Un gesto semplice, radicale, quasi istintivo, che mette in tensione lo spazio e orienta lo sguardo sulla materia, aprendo nuove prospettive sulla sua cultura progettuale.

Vertical Horizon is an invitation to change perspective: what begins on the horizontal plane rises to become presence, architecture and narrative. A simple, radical, almost instinctive gesture creates tension within the space and draws the eye to the material, opening up new perspectives on the design culture it embodies.

MORE EXPRESSIONS, ONE VISION.

Lea Ceramiche declina la propria visione in sensibilità progettuali diverse e le prestazioni tecniche di eccellenza sono la base su cui ogni collezione conferma il proprio valore. Una cultura del progetto che attraversa con coerenza linguaggi e interpretazioni differenti, dalla forza espressiva della pietra alla naturale eleganza del legno, modulando ogni volta ritmo, materia e superficie.

Lea Ceramiche expresses its vision through diverse design sensibilities, with outstanding technical performance underpinning the value of every collection. A coherent design culture runs through different design languages and interpretations, from the expressive power of stone to the natural elegance of wood, modulating rhythm, material and surface in new ways each time.

PROTECT

Per un abitare sano, sicuro e protetto.

Pavimenti e rivestimenti antibatterici ad altissime performance.

TO LIVE HEALTHILY, SAFE AND SECURE.

Antimicrobial floor and wall coverings with the highest performance.

1. AZIONE POTENTE.

Elimina i batteri e ne impedisce la proliferazione.

POWERFUL ACTION.

Eliminates microbes and prevents their reproduction.

2. PROTEZIONE CONTINUA.

Sempre attivo, 24 ore su 24, con e senza luce solare.

CONTINUOUS PROTECTION.

Always active, 24 hours a day, with and without sunlight.

3. EFFICACIA ETERNA.

Grazie alla tecnologia integrata in modo permanente nel prodotto.

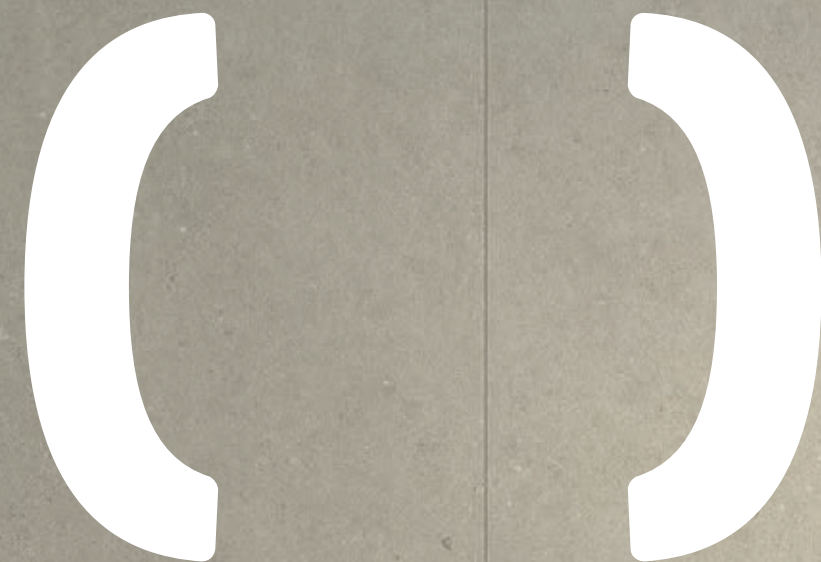

ETERNAL EFFECTIVENESS.

Thanks to the technology permanently integrated into the product.

SAFETOUCH

Comfort e sicurezza in un'unica superficie.

Comfort and safety. One surface.

Tecnologia d'avanguardia che rende le superfici ceramiche più lisce e gradevoli al tatto, mantenendo allo stesso tempo elevati gli standard di resistenza allo scivolamento. Grazie a Safetouch i pavimenti sono più sicuri, ma con ridotta ruvidità e quindi maggiormente igienici, facili da pulire e mantenere. Safetouch offre un coefficiente di resistenza allo scivolamento R10 B. È indicato per ambienti interni, in particolare dove sia richiesta maggior sicurezza, come bagni, spazi caratterizzati da presenza di acqua, contesti pubblici o commerciali.

Cutting-edge technology that makes ceramic surfaces smoother and more pleasant to the touch, while maintaining high slip-resistance standards at the same time. Thanks to Safetouch, floors are safer, while also being less rough and therefore more hygienic, easier to clean, and simpler to maintain. Safetouch has an R10 B slip-resistance rating. It is recommended for indoor environments, particularly where greater safety is required, such as bathrooms, areas exposed to water, and public or commercial spaces.

- 1. MORBIDA AL TATTO E RUVIDITÀ MINIMA.**
Soft to the touch and smoother.

- 2. RESISTENZA ALLO SCIVOLAMENTO GARANTITA.**
Guaranteed slip resistance.

- 3. IGIENICA E FACILE DA PULIRE.**
Hygienic and easy to clean.
